lights lost their Twinkle?

Join Elgin Recycling for our 7th annual holiday lights recycling program.

Year after year we find ourselves testing bulbs and replacing fuses, when that doesn't work in the garbage the lights go.

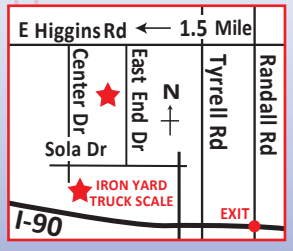

Last year with the participation of 56 villages, 7 park districts, 1 school, 4 libraries, 3 churches and 5 businesses, we were able to recycle 108,224 lbs of holiday lights that would otherwise been thrown away. For our 7th annual holiday lights recycling program our goal is to recycle over 125,000 lbs of holiday lights. You can keep track of your village's contribution on www.elginrecycling.com.

Elgin Recycling will drop off a 4' x 4' container for your village to collect lights to be recycled. Lights that will be accepted for this program are: Mini-lights (or Italian lights), C7 lights, C9 lights, rope lights, LED lights, extension cords, etc. All colors and lengths will be accepted. Garland, live greens, wreaths or other non-recyclables are not accepted in this program. The recycling program can run from October through March and each village will customize dates and locations that work for them.

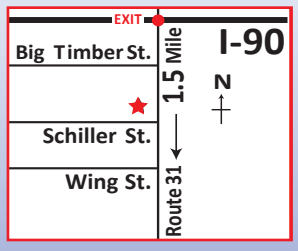

For more information please call us at 847-741-4100 or email Jaclyn Perkins at jperkins@elginrecycling.com. Reserve your containers today and stay GREEN with Elgin Recycling.
