Intranet Spotlight: FMLA

When you or a loved one experiences a serious health condition that requires you to take time off of work, the Family and Medical Leave Act (FMLA) may be able to help. Whether you are unable to work because of your own serious health condition, or because you need to care for a patient, spouse, or child with a serious health condition, the FMLA provides job-protected leave. Leave may be taken all at once or may be taken intermittently as the medical condition requires. Learn more under this section of the employee intranet where you will find information on what qualifies for FMLA, FAQs on this topic and all of the forms should you need to apply for FMLA.

If you have other questions on FMLA that cannot be answered on the intranet, please contact HR at: (815) 356-3653
