The Crystal Lake Historic Preservation Commission has designed a curated route throughout downtown Crystal Lake and nearby neighborhoods of 13 Sears Model Homes.

The Annual Heritage Tour celebrates Crystal Lake's history and architecture. This tour has been taking place since 1998 and each year, it brings together hundreds of community members interested in learning more about our city.

Attendees are given a keepsake program booklet which will guide them through the tour and inform them about these beautiful, vintage homes that are important historic structures in our community.

The support that is raised for this event is used throughout the year for preservation activities such as veteran gravestone repair, upkeep, and cleaning, and to fund the grant program which aids in the upkeep of historic landmarked properties in Crystal Lake.

Come learn about the rich history of these houses and the people who built them!

Details:

Tours begin at 10 am, with each 45-minute tour departing on the half hour.

Tickets will go on sale May 1st–don't wait, this event often sells out!
