PLEASE RETURN COLORED BUTTERFLY
TO CITY HALL BY *OCTOBER 14*

Monarch Butterfly Migration Map

Monarch Butterfly Migration

1. Monarchs begin their journey from Illinois.
2. The butterflies rely on nectar to survive along the way.
3. Monarchs take shelter and stay warm in evergreen trees.
4. Hundreds of thousands of butterflies arrive in the mountains of Mexico.
5. As the seasons change, monarchs begin their journey northward.
6. Adults search for milkweed in order to lay their eggs.
