Public Arts Commission
Agenda Supplement

Meeting Date: July 10, 2024

Item: Future Art Display Location

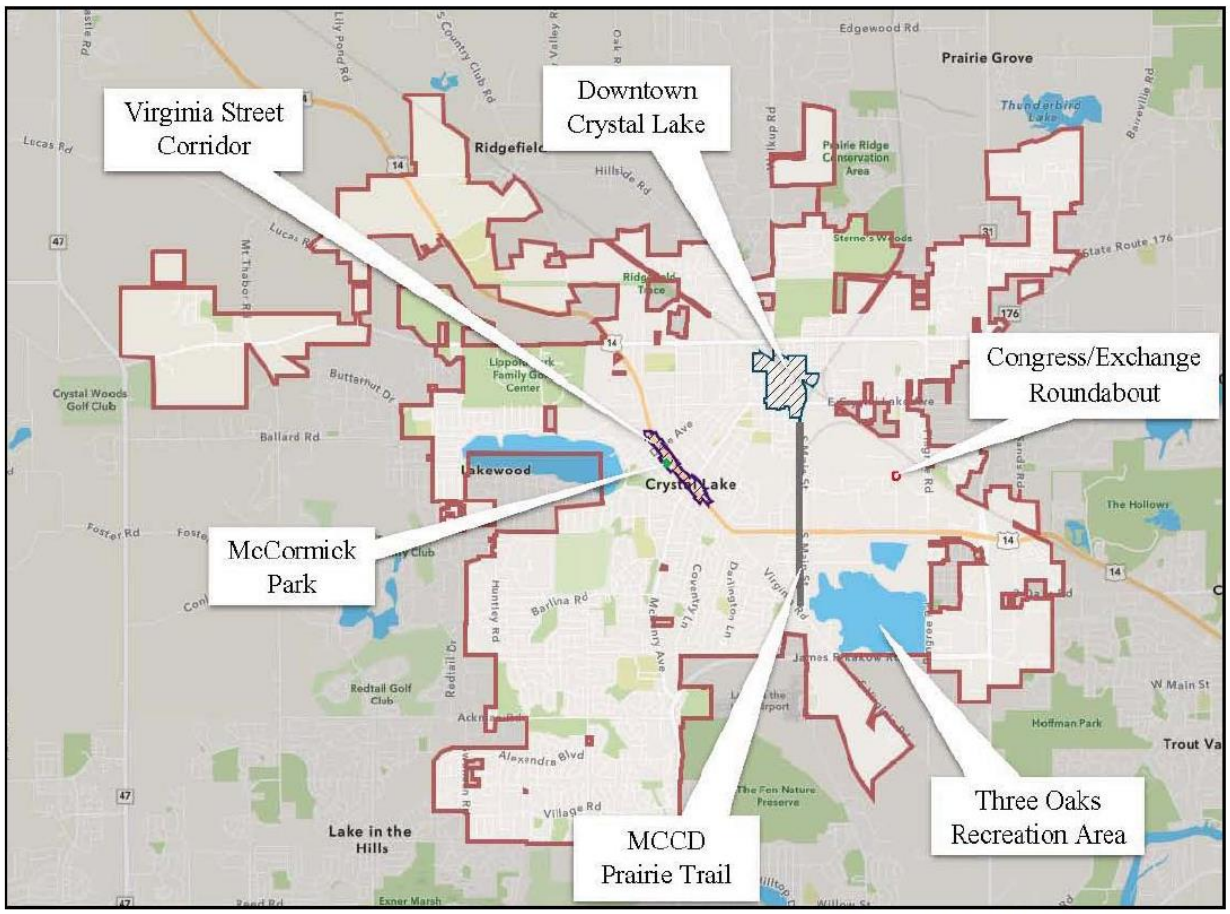

Contact: Katie Rivard, Assistant City Planner

Background:

The Public Arts Commission Strategic Plan was adopted earlier this year. The plan identifies high priority locations for future public art. Those locations include:

- Downtown Crystal Lake
- Virginia Street Corridor
- McCormick Park
- MCCD Prairie Trail
- Three Oaks Recreation Area (recent public art installation)
- Congress/Exchange Roundabout (in progress)

The Commission will discuss the next desirable location for public art, and what type of public art is appropriate for that location. Last year, a sculpture was donated to the Commission and was installed at Three Oaks Recreation Area. Currently, the Commission is seeking sculpture art for the newly constructed roundabout at Congress Parkway and Exchange Drive. A second Request for Proposal (RFP) is expected to be posted in August 2024. Additionally, staff has started researching a mural program for the City.

Desirable Public Art Locations
