WHAT IS PANHANDLING?

What is Panhandling?

- Panhandling or to Panhandle refers to soliciting money, food, or other goods from strangers on the street. Panhandling is generally derived from the impression created by someone holding out a hand, a container, or a sign to seek these items.

Dangers of Panhandling

- Panhandlers often go out into traffic making it more likely for a pedestrian accident to occur.
- Curbs and medians are not designed to protect people. This also makes it more likely for a pedestrian accident to occur.
- Drivers interacting with panhandlers can slow down the traffic pattern and lead to things like road rage from hurried, impatient drivers.
- Panhandling can also intimidate or concern some people, causing them to report it to the property owners or police.
