CITY OF Crystal Lake ILLINOIS

Sustainability Committee Responsibilities

- Provide recommendations to the City Council about implementing projects, policies, programs, and initiatives
- Spread awareness on environmental issues at local events
- Attend presentations from businesses, advocacy groups, and other sustainability-related associations to learn about potential opportunities for the City
- Recruit and maintain a list of volunteers willing to lend their time and effort to implement the Committee's recommended short and long-term goals
- Coordinate the use of volunteers, when appropriate, to oversee projects approved by the Sustainability Committee, City staff, and the City Council
- Assist City departments in an effort to encourage, where possible and within budget parameters, the adoption of environmentally sustainable practices
